## Joomla 1.0.13 nightmare

Posted by sstark - 2007/07/26 14:42

---

Well the Joomla team released another "stable" release of Joomla core, 1.0.13 called 'Sunglow'.

The problem, however, is that almost no one should upgrade to this!

This update breaks backwards compatability with earlier versions of Joomla, causing all your components and modules to break down. This is a security update, however it will require you to update every component you currently use, and those updates are not ready yet.

According to Joomlaopolis.com (Community Builder), there were some communication problems and security bugs were not being sent to the testers. This resulted, somehow, in an improper SVN release being shipped as a 'stable' release, and many many broken websites.

Component developers are now having to first make 'downgrade back to 1.0.12' patches before making upgrading patches... this is causing a big mess!!

And this is why I never, ever, upgrade any system right away. I wait until others do it first, and properly pave the way with bug hunting.

This is an actual account by a worker at a technical support and service center. One particular customer had wow gold an old console-type machine with a print head that would ride back and forth on a spiral shaft. buy gold on wow They also had a big bushy cat who liked to sit oas a butcher is shooing a dog cheap wow gold from his shop, he sees \$10 and a note in his mouth, reading: "10 lamb chops, please." amazed, buy wow gold he takes the money, puts a bag of chops in the dog's mouth, and quickly closes the shop. runescape gold he follows the dog and watches him wait for a green light, look both ways, and trot across rift platinum the road to a bus stop. the dog checks the timetable and sits on the bench. when a world of warcraft gold bus arrives, he walks around to the front and looks at the number, then boards the bus. the wow gold instant delivery butcher follows, dumbstruck. as the bus travels out into the suburbs, the dog takes in the scenery. after rift gold awhile he stands on his back paws to push the "stop" button, then the butcher follows him off. the dog runs up to a house and drops his bag on the stoop. he goes back down the path, takes a big run, and throws himself -whap!- against the door. he does this again and again. no answer. so he jumps on a wall, walks around the garden, beats his head against a window, jumps off, and waits at the front door. a big guy opens it and starts cursing and pummeling the dog. the butcher runs up screams at the guy: "what the hell are you doing? this dog's a genius!" the owner responds, "genius, my ass. it's the second time this week he's forgotten his key!"
